Work History

Web Developer & Technical Specialist (05/2018 to Current)
Reahard & Associates, Inc. – Soddy Daisy, TN

- Maintain and update three WordPress websites with in-house themes using HTML, CSS, JavaScript, jQuery, PHP, and SQL.
- Coordinate the development of new custom software by thoroughly documenting expectations, facilitating communication, providing QA, and managing project deadlines.
- Create an API for use with custom software using PHP and SQL.
- Create bespoke, interactive SCORM courseware using both Adobe Captivate and Articulate 360.
- Provide technical support in-house including implementing new software, configuring local network connections, setting up new devices, creating data backups, etc.
- Provide technical support to clients ranging from basic troubleshooting to implementing fixes.

Math Tutor / Test Proctor (08/2017 to 05/2018)
Chattanooga State Community College – Chattanooga, TN

- Provide 1-on-1 tutoring for every math course offered.
- Explain both simple and complex topics to struggling students.
- Check students in and out of the testing area and provide them with the necessary resources (locker, calculator, work sheet, formula sheet, etc.).
- Authorize students to begin testing and monitor testing area for prohibited activity.
- Assist students and professors with technical issues relating to computers, printers, projectors, calculators, online courses, etc.

Private Math Tutor (08/2017 to 12/2017)
- Develop personalized lessons based on student's needs.
- Tailor the pace and content of the lesson to maximize comprehension.
- Provide detailed explanations for any homework or test review questions.
- Provide additional help via text or email when necessary.

Freelance Tech Support (2015 to Current)
- Repair malfunctioning devices (computers, tablets, phones, printers, etc.).
- Install and set up new devices.
- Assist customers with understanding how to use various technologies and devices.
- Assist with account recovery, account linking, file transfers, data backups, etc.
